## INFORMATION DISCLOSURE STATEMENT

Mail Stop PCT Commissioner for Patents P. O. Box 1450 Alexandria, VA 22313

Sir:

Pursuant to 37 C.F.R. §1.97, a list of documents is disclosed on the attached Form PTO-1449 that may be material to the examination of this application. The cited references are enclosed herewith.

Documents for which the supplied date of publication lists the year of publication without the month were published sufficiently earlier than the effective U.S. filing date and any foreign priority date, so that the particular month of publication is not in issue. Pursuant to §609 of the MPEP, it is understood that the month of publication is not required when the particular month of publication is not in issue.

No inferences should be drawn that the attached list represents a comprehensive investigation, or that any material disclosed is equivalent to the subject invention. In addition, none of the documents that have publication dates prior to the priority date of the above application anticipate the invention in this application.

Applicant also encloses a copy of the PCT Search Report and references cited therein.

The cited document(s) disclose numerous specific features. There has been no attempt to list each

and every feature disclosed by each document. The Examiner is requested to review the document(s) and

determine the extent of the materiality of the document disclosures with respect to the present invention.

The discussion of any art and the citation of any document(s) herein is not to be construed as an

admission that the art or document disclosure is necessarily within the invention field of endeavor, that the

art or document disclosure is necessarily prior in time to a particular date which may be relevant to the

instant patent application, and/or that the art or document disclosure is otherwise necessarily prior art as

defined by the patent law with respect to the instant invention and application.

Also, there is reserved the right to later set forth how the instant invention is distinguished over the

disclosure of any document or other art, including the disclosures of the art and document(s) recited herein,

that may be cited by the Examiner in rejecting a claim in the instant patent application. The recitation

herein of the art and document(s) is not to be construed as an assertion that more pertinent art could not

possibly be in existence.

Respectfully submitted,

Gerald T. Shekleton
